

SHIVNESH MURALIKRISHNAN

Data Analyst | Product Data Management | Data Quality & Enrichment

Coimbatore, Tamil Nadu, India | +91 89036 02392 | shivneshmuralikrishnan@gmail.com | linkedin.com/in/shivneshmurali

PROFESSIONAL SUMMARY

Data Analyst with hands-on experience in product data management, data quality, data enrichment, and market research. Skilled in analyzing and validating large product datasets, identifying data gaps, and improving data completeness and accuracy using Advanced Excel, Power Query, Pivot Tables, XLOOKUP, SQL (in progress), and AI-assisted research tools including ChatGPT, Gemini, and Claude. Proven ability to design workflow automation processes that reduce manual research effort and improve data consistency at scale. Mechanical Engineering background with exposure to new product development, R&D, and technical problem-solving. Focused on applying data analytics, customer intelligence, and automation to support product data quality and business decision-making.

CORE SKILLS

Data & Analytics: Data Analysis, Product Data Management, Data Quality, Data Validation, Data Enrichment, Data Completeness, Data Accuracy, Trend Analysis, Data Interpretation, Data Cleaning, Data Exploration, Segmentation

Tools & Technical: Advanced Excel, Power Query, Pivot Tables, XLOOKUP, SQL (Learning), Data Transformation, Structured Data Analysis

AI & Automation: ChatGPT, Gemini, Claude, AI-Assisted Research, Workflow Automation, Web Research Automation, Process Improvement

Research & Intelligence: Market Research, Product Research, Customer Intelligence, Product Intelligence, Competitive Research, Insight Generation

Business & Collaboration: Cross-Functional Collaboration, Problem Solving, Technical Communication, Business Insights, Documentation, Process Optimization

PROFESSIONAL EXPERIENCE

Product Data Analyst | eClerx Personiv

Aug 2025 – Present

- Analyze, enrich, validate, and optimize large-scale product datasets to improve data accuracy, completeness, consistency, and usability for business applications.
- Conduct detailed product and market research using internal and external data sources to identify missing, inconsistent, and inaccurate product information.
- Use Advanced Excel, Power Query, Pivot Tables, and XLOOKUP to clean, analyze, validate, and organize product data for reporting and analysis.
- Apply ChatGPT, Gemini, and Claude to accelerate data research, analysis, and information extraction while validating outputs for accuracy.
- Design and implement workflow automation and web research automation approaches that reduce repetitive manual research and improve speed and consistency.
- Perform structured analysis to identify trends, inconsistencies, opportunities, data gaps, and quality risks across product datasets.
- Collaborate with cross-functional teams to investigate data abnormalities and ensure product information meets quality and completeness standards.
- Translate complex product and technical information into structured datasets and clear findings that support analytics and decision-making.
- Continuously identify opportunities to improve research workflows, reduce manual effort, and build scalable approaches to product data intelligence.
- Maintain accuracy, traceability, and evidence-based verification while working with high volumes of product information.

New Product Development Intern | Supertek Industries

Dec 2024 – Feb 2025

- Collaborated with Design and R&D teams on new product development involving pumps and material-handling solutions.
- Supported technical and product research by analyzing product requirements, engineering constraints, and manufacturing considerations.
- Gained cross-functional exposure to machining, assembly, production planning, and maintenance processes.
- Applied analytical problem-solving to technical challenges across departments and product development workflows.

Automotive Technician Intern | Maruti Suzuki

Jun 2023

- Gained hands-on experience in inspection, repair, replacement, and maintenance of automotive components.
- Followed structured safety procedures and technical guidelines while performing service and diagnostic activities.
- Worked alongside experienced professionals to understand automotive systems and troubleshooting processes.

Content Writer Intern | Peershala

Jan 2023 – Apr 2023

- Conducted topic and audience research to inform structured, data-backed written content.
- Created articles, blog posts, and social media content tailored to target audience interests.
- Translated research and information into clear, engaging, audience-focused communication.

EDUCATION

Bachelor of Engineering – Mechanical Engineering

Hindusthan College of Engineering and Technology, Anna University, Coimbatore, Tamil Nadu | 2021 – 2025

Higher Secondary School

Navarsam Matriculation Higher Secondary School, Erode, Tamil Nadu | 2020 – 2021

PROJECTS & TECHNICAL ACTIVITIES

- 3D Printing & Drones: Explored practical applications of 3D printing and drone technology.
- Mini Bike: Hands-on engineering project involving mechanical design and component integration.
- Wiring Harness: Practical exposure to wiring-harness concepts and system integration.
- EV Workshop: Participated in an electric-vehicle-focused technical workshop.
- Promo Buzz: Participated in communication, promotion, and audience-oriented activities.

LEADERSHIP & ACTIVITIES

- Solar Electric Vehicle Event – Volunteer (2 years): Gained exposure to EV technology, teamwork, and event coordination.
- Bureau of Indian Standards (BIS) – Active club member participating in technical and standards-related activities.
- Indian Racing Festival 2024 – Volunteer supporting event activities, coordination, and teamwork.

CERTIFICATIONS & SHORT COURSES

3D Printing & Drones | Wiring Harness | EV Workshop | Mini Bike | Promo Buzz

LANGUAGES

English – Fluent | Tamil – Fluent
